Sky D275

DUCOBOX ENERGY SKY

The Sky really has no limit with this compact ventilation box and its various mounting options. In addition, you save more than 50 % on calibration time thanks to features such as automatic calibration, copy function **and 100 % interchangeability via display**. Smart demand control also ensures that the unit operates very energy-efficiently. The device is **extremely light (19 kg)**, making it easy to install by one person. Despite its light weight, the unit is still very quiet. With a **maximum emission from casing of 54dB**, it is among the quietest ceiling units on the market.

SCAN & DISCOVER THE SKY

DucoBox **Energy Sky**

The DucoBox **Energy Sky** with a ventilation flow rate of 275 m³/h (at 200 Pa) has been specially developed for mounting in compact technical rooms and cramped storage areas, such as in apartment buildings.

This lightweight ceiling model perfectly complements our **Energy Family** (Mechanical Ventilation with Heat Recovery systems) and, thanks to its limited height of 30 cm, also fits seamlessly into suspended ceilings. The unit can also be wall-mounted.

All the advantages of the other DUCO MVHR systems were adopted here, including the possibility of 2-zone control via external valve, automatic calibration, copy function, head-up display, etc.

Properties

Width x Height x Depth (mm)	670 x 1180 x 295
Extraction capacity at 150 Pa:	275 m ³ /h
Weight	19 kg
Maximum power consumption	130 W
Rendement conform EN 13141-7 :2021	91 %
Rendement conform SAP 2005 Results	From 90 % to 94 %
Rendement conform SAP 2012 Results	From 89 % to 93 %
Mounting	Ceiling or wall
