

TECHNICAL DATA SHEET

Duco Outdoor Temperature Sensor

The Duco Outdoor Temperature Sensor is essential for the operation of a DUCO Natural Cooling system. The Duco Outdoor Temperature Sensor measures the outdoor temperature and thus controls the Duco IntelliHub. Thanks to this automatic control, cooling is optimised and only when needed.

The sensor communicates via wire with the Duco IntelliHub.

Physical properties

Item number	0000-4988
Dimensions (W x H x D)	132 x 99 x 36 mm
Weight	120 g
Material	Plastic casing + stainless steel probe
Colour	Grey
Ambient temperature	-40 °C to +85 °C

Electrical properties

Power supply	24 VDC
Working voltage	21.6 to 26.4 VDC
Communication	Duco Wired
Peak power	< 1 W
IP class	IP65

Sectional drawings Duco Outdoor temperature sensor
